

Preventive Maintenance of Residential Drains® 2012

Bacta-Pur®, BACTIVATOR®(D) & ECOPROBIOTICS® are trademarks of Aquaresearch Canada Ltd used under license.

ECOPROBIOTICS®, of the Bacta-Pur® System, are beneficial communities of natural bacteria, which have been on earth for millions of years and have been selected for their synergistic ability to biodegrade pollutants and to improve water quality. ECOPROBIOTICS® increase biodiversity. Just as people take probiotic yogurt for its' ability to assure the presence of the optimal community for digestion and immunity, ECOPROBIOTICS® improve ecosystem health. EVERY PRODUCTION of Bacta-Pur® products is analyzed and cleared for shipment ONLY after passing all performance tests and being CERTIFIED PATHOGEN FREE using techniques from the food industry. ECOPROBIOTICS® are purely natural and beneficial; they NEVER contain added chemicals such as surfactants, emulsifiers or enzymes... nor do they contain genetically modified (GMO) or deliberately mutated organisms. ECOPROBIOTICS® are safe and beneficial. Bacta-Pur® microorganisms are not subject to TOSCA (USEPA) and are listed on the DSL of Environment Canada.

Summary	
SYMPTOMS / PROBLEMS	TREATMENT BENEFITS
• pipes blocking, reduced flow rates in sinks	• increase flow in drain lines
• excessive grease in pipes	• reduce grease build-up in pipes
• accumulation of scum and hair in drains	• maintain drains operating normally
• noxious odors coming from drains and trap	• eliminate causes of noxious odors

Causes of Grease Build-up and Blocked Drains

Drains become blocked, by grease, scum and hair leading to reduced flow & noxious odors.

Why the Bacta-Pur® System is Safe & Effective

ECOPROBIOTICS®, the “yogurt” for Mother Nature, improve ecosystem health (ecoimmunity®) & increase biodiversity; they are purely natural & beneficial & NEVER contain added dangerous/toxic chemicals such as acids or base... Bacta-Pur® KLEAN DRAIN, one of the ECOPROBIOTICS®, contains natural beneficial microorganisms (never genetically modified), which digest grease & a multitude of pollutants. Help improve/maintain good flow in drains & eliminate causes of noxious odors. Benefits continue down stream to help clean & protect municipal infrastructure. ECOPROBIOTICS® facilitate oxygen transfer, which can help save energy in wastewater treatment plants, thus reducing causes of global warming. EVERY PRODUCTION is performance verified & cleared, for use, only when CERTIFIED PATHOGEN FREE using techniques from the food industry. Massachusetts TITLE V approved.

Preventive Maintenance with Bacta-Pur®

Bacta-Pur® KLEAN DRAIN is not only very concentrated and efficient; it is also fruity smelling. Small weekly doses will prevent expensive problems. Add Bacta-Pur® KLEAN DRAIN to each drain opening (e.g., sinks, toilets, baths, etc.).

MAINTENANCE DOSE RATE: ONLY 15 ml (one tablespoon) / drain / WEEK; use more for severe problems.

NOTES: Do not use chlorine bleach with Bacta-Pur®; the bleach will kill the beneficial bacteria. The small amount of chlorine in the water in the pipes will not cause a problem.

Help yourself and the environment with Bacta-Pur®.
